

Floor One Opening Authorisation

According to the hire contract the hirer is responsible for the supervision of Floor One Gallery at all times. However, hirers can give authorisation for the room to be opened in their absence providing they have followed the Installation Guidelines and there are no risks to the public.

I authorise Floor One Gallery to be opened to the public when the room is not supervised by my representative, or myself even if there are works on open display. I understand that Rugby Art Gallery and Museum will not be responsible for supervision or security of the artworks at any time.
